SULABH ERP

VYAPAAR VICHAAR

A solution which can be end to end on software to suit the complete requirements of the industry or business including professional services and service industries.

We as a service provider can offer right through the concept to completion of ERP with analytical and decision making reports. Also we can develop module wise programme for the specific requirements of the clients such as

- **Design & Development,**
- **Marketing & Sales**
- **Production**
- **Planning and Process Control**
- **Product Engineering**
- **Process Engineering**
- **Plant Engineering**
- **Systems and Quality**
- **Supply Chain Management including logistics (GPRS level)**
- **Inventory & Ware House management,**
- **Job Work**
- **Sub Contract**
- **Finance, Accounts**
- **Costing**
- **Payroll management etc.,**

The system provision could be stand alone, off line with

dedicated server and online with server support with 24 x 7 maintenance basis. Also Sulabh Softech Private Limited provides software with different levels of privileges for a better access and also controls with lot of transparency and cohesive.

Further we categorize this into 3

MANUFACTURING: All the industries who are into manufacturing set up will be covered under this category. This may include right from strategies for Marketing till Sales involving the entire gambit of jobs such as Conceptualize, Create, Compose, Complete and Carry (Logistics) to sell the product to realize Cash. Sulabh can provide the solutions end to end basis. The modules include

- **Marketing,**
- **R & D with NPDP**
- **Cost Sheet etc.**
- **Sales Plan**
- **Production Plan**
- **Material Management**
- **Invoicing and after sale services**
- **Quality**
- **Product and Plant Engineering**
- **Accounting Systems Solution.**

There can be stand alone products / modules such as

- **Sub Contract management,**
- **Job work Management,**
- **Asset management etc.,**

TRADING: The product for the trading will be

- **“Purchases Management”**
- **“Inventory Management including warehousing”**
- **“Sales Management”**
- **“MIS including Accounts”**

Also payment gateway for e-commerce may be an embedded product for the same. Other than this we can also handle Stockist, Dealer and Agent as well as retail with commission workings etc.,

SERVICES: Normally the services are professional & Institutional services. Sulabh can handle the software suitable to each one of the service based on the customer requirement with complete customization and implement the same to the best satisfaction of the clients. For example Sulabh can provide solutions to HMS (Hospitality Services like Hotels, Hospitals etc.), Infrastructure, Logistics (Courier, Transport, Warehousing, C & F etc.) HR Services, Communication services etc.,
